

Friday, September 24: Intersectional Deaf Community

Video Transcript

Hello, my identity is a Person of Color. I am also a Muslim. Not strongly practiced but it will always value in me. I am a male but I am gay. People around me see me use sign language and facial expression. It identifies me as Deaf. In all of the identities, can I pick one? No. All of the identities become myself as Imran Hakamali. That! Thank you!
